Examiner's Statement of Reasons for Allowance

1. The following is an examiner's statement of reasons for allowance: claims 1 and 8 are allowable for setting forth a saw machine comprising a seat disposed in a housing; a first frame and a second frame each rotatably secured to the seat, and each having a sector gear; a first saw blade and a second saw blade; a first adjusting means having a shaft rotatably secured to the seat; a worm gear disposed on the shaft; and a means for supporting the shaft on the seat, the supporting means including a block having an orifice for receiving the shaft, a bracket being secured to the seat and the block being secured to the bracket. The bracket includes at least one hole formed therein, and at least a fastener is engaged through the hole and attached to the seat to adjustably secure the bracket to the seat.

For example, Parks et al. (6,530,303 B1), hereinafter Parks, teach the invention substantially as claimed except for two saw blades and a supporting means. Assuming that a second blade can be modified, Parks fails to teach the supporting means. While Parks teaches a shaft 232 and a block 101B for receiving the shaft. There is no teaching of a bracket being secured to the seat and a block for receiving the shaft being secured to the bracket.

Tagliaferri (5,159,869) teaches a saw assembly having two saw blades. Tagliaferri, however, fails to teach two rotatable frames and a supporting means including a block having an orifice for receiving the shaft, a bracket being secured to the seat and the block being secured to the bracket.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
